-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 2-3 recite "capable of being raised or lowered without the use of draw strings" which contradicts line 4 which recites "a row of ties" and lines 18-21 which set forth that the ties raise the window treatment inasmuch as the row of ties are the functional and mechanical equivalent of draw strings for the claimed raisable window treatment.

Similarly for claims 6,8,10 which further suffer from the above noted defect.

Claim 17, line 3 recites "the first, second or third row of ties" for which there is no antecedent basis.

The applicants state that in the art to which the present application pertains the term "draw string" as used in the claim refers to a conventional pull cord that extends vertically and pushes upwardly or downwardly through guide elements, hem or any other type of casing to raise or lower a curtain, shade, or other window treatment. This is not convincing for the claims of the instant application do not reflect the distinction of the draw string as being a conventional pull cord that extends vertically and pushes upwardly or downwardly through guide elements hem or any other type of casing to raise or lower a curtain, shade, or other window treatment

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3634

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9,11-14,16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gordon '508. Gordon '508 discloses a raisable window treatment 10 comprising rows of ties 11,13, rows of openings 14, and a top tab 6.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10,15,17,18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gordon '508. While Gordon '508 sets forth only two rows of ties as opposed to the claimed three rows of ties, it would have been within the purview of the artisan of ordinary skill in the art to have utilized additional rows of ties for their explicit purpose of raising the window treatment.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3634

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
